Email _____

LOCATION OF RAIN BARREL(S) (be specific) _____

Number of rain barrels being installed: _____ individually _____ connected to each other

_____ Rain barrel(s) will be equipped with a diverter kit

_____ Rain barrel(s) will be diverted directly from the downspout without a diverter kit.

_____ Overflow will be directed back into the existing downspout.

Section 1389.05; ROOFS, GUTTERS AND DOWNSPOUTS

All roofs of every structure shall be maintained weather tight and shall be equipped with gutters and downspouts maintained in good repair and connected to a public storm sewer or to an approved retention system.

Notwithstanding the foregoing, one or more downspouts may be diverted into an approved rain barrel and be incorporated into a storm drainage system that protects from overflow.

One or more rain barrels may be placed in a rear yard.

Rain barrels shall be covered at all times and shall not cause excessive erosion, water damage or create a nuisance on public or private property.

The installation of rain barrels shall be subject to the review and approval of the director of building and shall conform to the standards set forth by the city for such receptacles.

The acceptance of the permit herein applied for shall constitute an agreement on the part of the undersigned to comply with all ordinances of the City of Mayfield Heights.
